Find out if Laura may assist you with your family law issue.

Dissolution is complicated. There are many issues that couples will need to sort out, and many families either work these out on their own, or with a divorce coach, a mediator or therapist. When a couple has come to an agreement, there are also prescribed court forms to complete in order to have the divorce finalized. Many families are not high conflict and choose not to litigate their dissolution. Couples who have reached agreement need not spend money they may not have on costly court battles, yet need to file correct court forms. As a legal technician, Laura can assist. She will also explain the court forms and court process to you in plain language and allow you to ask all the questions you need.

The Collaborative Approach:

With support many couples are able to reach durable solutions.

Collaborative professionals such as:

- ***Divorce Coach / Parenting Coach***
- ***Mediatior / Therapist***
- ***Financial Specialist***

assist with the process. Laura can provide referrals to these professionals, and help you complete and file the required court forms.

Call to set up your consultation

Personal consultation times available on Seattle and the Eastside. Cost is $125 and consultations last about an hour.

Laura currently practices in King County with plans to expand to other Counties in the coming year. She charges by the hour for legal services. Be advised there is no LLLT/client relationship until a fee agreement is signed.
